AGEING CONCERNS

The following procedures are preceded by a thorough consultation where together we will determine a course of treatments based on your primary skin concerns. We will also discuss what you can expect during and after each treatment, as well as potential down time and essential pre and post home care products.

DERMAPEN 4 MICRO NEEDLING

The Collagen Induction therapy is a remarkable needling treatment that causes skin to stimulate collagen production and fresh, new tissue. Skin tightens, wrinkles, fine lines, scarring and hyper pigmentation significantly diminish. Pores become finer and the overall health and circulation of the skin is improved.

Because you deserve the best and because we like to see results, our equipment and the products we needle into the skin are of the highest quality. Remember ladies, not all micro needling is created equal.

This peel stimulates the epidermis, evens skin tone, regulates oil and dilated pores, restoring skin radiance.

This is a superficial to medium depth peel.

For wrinkles, texture and pigmentation.

Excellent for all skin types, a stronger peel to specifically target pigmentation and improve skin clarity. We recommend a course of 4 treatments at 4 to 6-week intervals.
