AGEING CONCERNS

The following procedures are preceded by a thorough consultation where together we will determine a course of treatments based on your primary skin concerns. We will also discuss what you can expect during and after each treatment, as well as potential down time and essential pre and post home care products.

DERMAPEN 4 MICRO NEEDLING

The Collagen Induction therapy is a remarkable needling treatment that causes skin to stimulate collagen production and fresh, new tissue. Skin tightens, wrinkles, fine lines, scarring and hyper pigmentation significantly diminish. Pores become finer and the overall health and circulation of the skin is improved. Because you deserve the best and because we like to see results, our equipment and the products we needle into the skin are of the highest quality. Remember ladies, not all micro needling is created equal.

DERMACEUTIC LABORATOIRE medical peels

MASK PEEL **500**

For oily skin with large pores. This peel brightens, purifies, decreases sebum production and evens skin tone. Great for teens and adults with oily or congested skin.

MILK PEEL **790**

For fine lines, dull complexion and loss of tone. This peel stimulates the epidermis, evens skin tone, regulates oil and dilated pores, restoring skin radiance. This is a superficial to medium depth peel. No down time or peeling makes this treatment great to have every 2 to 3 weeks to maintain a youthful looking skin.

COSMO PEEL **15% TCA 1500**

For wrinkles, texture and pigmentation. **18% TCA 1600**
Reduces acne, pigment spots and signs of ageing.
Improves texture and smoothness.

Concerned about ageing? This powerful peel is for you. Your skin is likely to peel, so there is some down time. Expect results!

MELA FORTE PEEL **1 900**

Excellent for all skin types, a stronger peel to specifically target pigmentation and improve skin clarity. We recommend a course of 4 treatments at 4 to 6-week intervals.

Please note that both Cosmo and Mela peels require skin preparation using specific products prior to your treatment. Recommended home care products post your treatment, or during your course of treatments, will significantly increase results.
